May 24, 2023

**Nippon Life Insurance Company** 

### **Table of Contents**

**1** Group overview

**2** Domestic life insurance business

**3** Business outlook

[Reference] Status of each Group company

# **Domestic life insurance** Individual insurance/ annuities

#### Revenues from insurance and reinsurance

¥6,373.5 billion

vs FY2021 +18.3% / vs FY2019 +11.4%

• Increased mainly due to an increase in sales of single payment products of Nippon Life, Taiju Life, and Nippon Wealth Life.

#### Core operating profit

¥479.4 billion

vs FY2021 -43.7% / vs FY2019 -12.6%

 Decreased mainly due to higher benefit payments related to COVID-19, an increase in hedge costs, and increase in provision of standard policy reserve of Nippon Wealth Life.

#### Annualized new premium

¥404.4 billion

vs FY2021 +2.6% / vs FY2019 -0.7%

• Increased compared to FY2021 due to an increase in sales of foreign-currency denominated products of Nippon Wealth Life and Taiju Life, despite a decrease at Nippon Life mainly due to the revision of the premium rate for savings-type products.

#### Annualized premium in force

 $\Rightarrow$  ¥4,594.4 billion

vs end March-22 +0.5%

• Increased compared to the end of FY2021 mainly due to an increase at Nippon Wealth Life, despite a decrease at Nippon Life.

#### **Business outlook**

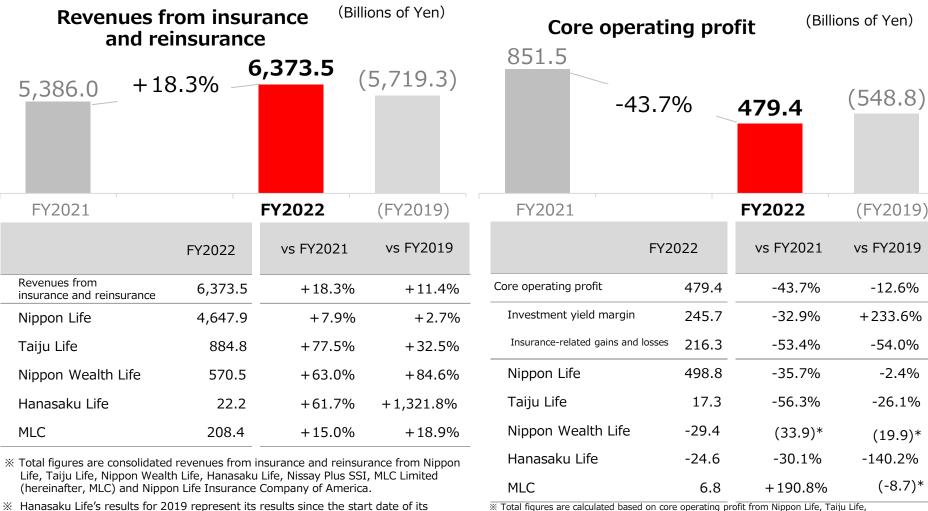

Decrease in revenue and increase in profit

- Revenues from insurance and reinsurance decrease mainly due to a decline in group annuities at Nippon Life.
- Core operating profit increases mainly due to a decrease in benefit payments related to COVID-19.

business (June 24, 2019).

#### Revenues from insurance and reinsurance/Core operating profit

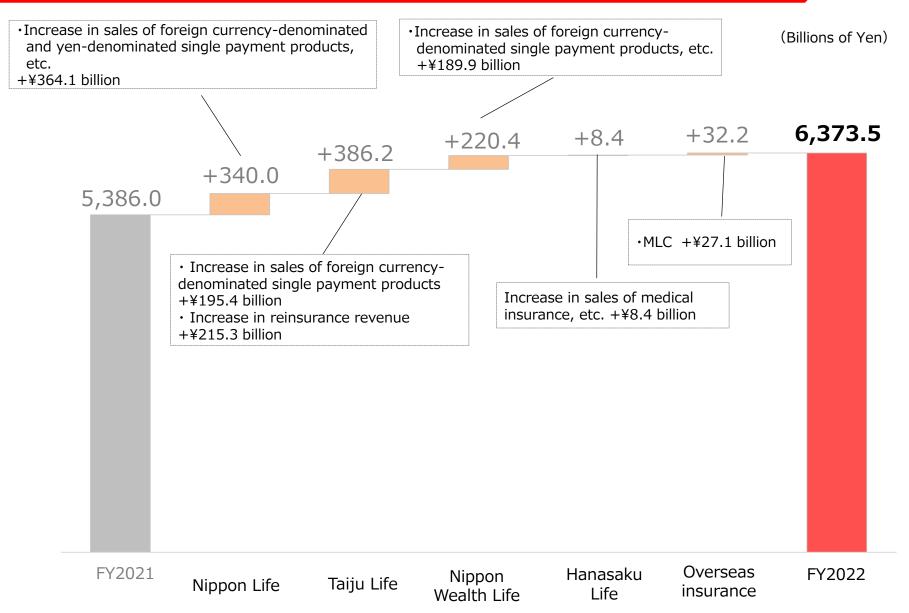

<sup>\*</sup> Total figures are calculated based on core operating profit from Nippon Life, Taiju Life, Nippon Wealth Life and Hanasaku Life and net income before taxes of global insurance subsidiaries and affiliates and domestic and overseas asset management subsidiaries and affiliates and with adjustment based on the stock ownership ratio and some internal transactions, and excluding interest rate fluctuations.

<sup>\*</sup> Investment yield margin and insurance-related gains and losses are based on total of domestic life insurance.

<sup>\*</sup> Figures for subsidiaries are calculated based on the stock ownership ratios during each

<sup>\*</sup> Increase/decrease rates could not be calculated because of the different signs of the figures for the fiscal year under review and the fiscal year under comparison. Figures in parentheses. represent the result for each fiscal year.

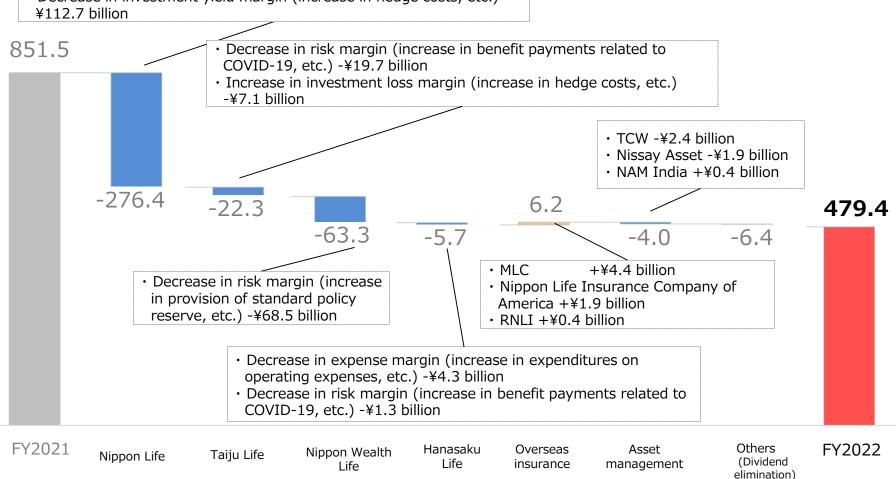

#### **3** Revenues from insurance and reinsurance

<sup>\*\*</sup> Total figures are consolidated revenues from insurance and reinsurance from Nippon Life, Taiju Life, Nippon Wealth Life, Hanasaku Life, Nissay Plus SSI, MLC and Nippon Life Insurance Company of America.

#### Core operating profit

- •Decrease in risk margin (increase in benefit payments related to COVID-19, etc.) -¥172.5 billion
- · Decrease in investment yield margin (increase in hedge costs, etc.)

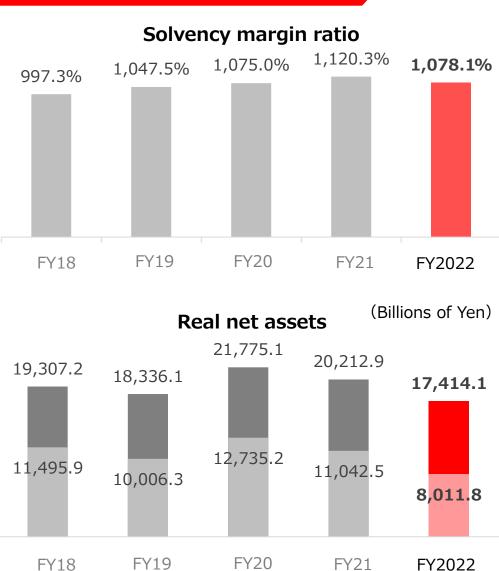

<sup>\*</sup> Total figures are calculated based on core operating profit from Nippon Life, Taiju Life, Nippon Wealth Life and Hanasaku Life and net income before taxes of overseas life insurance subsidiaries and affiliates and domestic and overseas asset management subsidiaries and affiliates and with adjustment based on the stock ownership ratio and some internal transactions, and excluding interest rate fluctuations.

<sup>\* [</sup>Company names] Nissay Asset: Nissay Asset Management Corporation, RNLI: Reliance Nippon Life Insurance Company Limited, NAM India: Nippon Life India Asset Management Limited.

#### **Soundness**

- Solvency margin ratio declined compared to the end of FY2021 due to a decrease in unrealized gains on other available-for-sale securities.
- Real net assets decreased compared to the end of FY2021 due to a decrease in unrealized gains on securities.
- Economic Solvency Ratio (ESR)\*, which is the solvency ratio based on economic value, was 244% as of the end of FY2022.
  - \* A soundness indicator that represents capital adequacy relative to the amount of risk. It is calculated using Nippon Life's internal model.

Unrealized gains/losses on securities \* Unrealized gains/losses on securities are calculated from Nippon Life, Taiju Life, Nippon Wealth Life, Hanasaku Life, overseas life insurance subsidiaries and other consolidated subsidiaries.

	Accident/Injury rider	298 cases ¥1.78 billion	

#### Hospitalization benefits

	FY2021
Hospitalization benefits	151,614 cases ¥22.68 billion
Hospitalization at an extraordinary facility	133,496 cases ¥19.87 billion

#### **Business outlook for FY2023**

- The business outlook for FY2023 calls for a decrease in revenue and an increase in profit on a Group total basis compared to the previous fiscal year.
- Revenues from insurance and reinsurance are expected to decrease mainly due to a decline in sales of single payment products in bancassurance, etc.
- Core operating profit is expected to increase mainly due to an increase in the risk margin caused by a decrease in benefit payments related to COVID-19.
- \*The business outlook is based on a current understanding of the environment, and is subject to change during the period depending on factors such as future business performance and market trends.

(Billions of Yen, Millions of Australian Dollars)

Nippon Wealth Life	570.5	Increase	-29.4	Increase
Hanasaku Life	22.2	Increase	-24.6	Decrease
MLC	1,840	_*1	75	_*1

<sup>\*1</sup> In Australia, there will be a transition to a new accounting standard that conforms to IFRS 17 beginning in FY2023.

<sup>\*2</sup> Increase or decrease based on the results for FY2022 and outlook for FY2023 excluding MLC.

<sup>\*\*</sup> The Group total for revenues from insurance and reinsurance are consolidated revenues from insurance and reinsurance calculated from Nippon Life, Taiju Life, Nippon Wealth Life, Hanasaku Life, Nissay Plus SSI, MLC and Nippon Life Insurance Company of America.

<sup>\*\*</sup> The Group total for core operating profit is calculated from Nippon Life, Taiju Life, Nippon Wealth Life and Hanasaku Life and net income before taxes of overseas life insurance subsidiaries and affiliates and domestic and overseas asset management subsidiaries and affiliates and with adjustment based on the stock ownership ratio and some internal transactions, and excluding interest rate fluctuations.

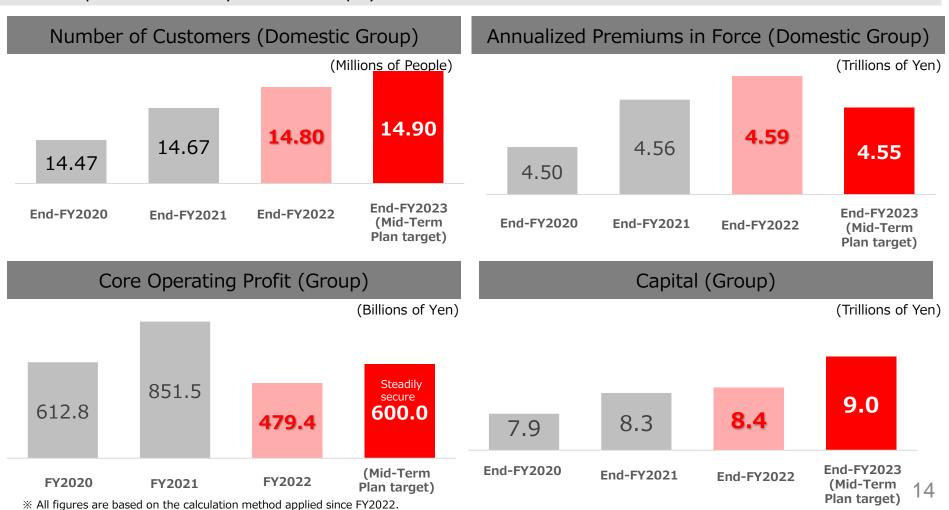

MLC's revenues from insurance and reinsurance are premium revenue. Core operating profit is calculating
 by stock ownership ratio and excluding interest rate fluctuation factors, etc. from net income before taxes 13
 (on a local currency basis).

# [Reference] Status of progress on achieving the numerical targets of Mid-Term Management Plan (2021-2023)

Domestic life

insurance business

- Results for the number of customers and annualized premiums in force are progressing steadily toward numerical targets.
- Core operating profit was above target in FY2021, but it was below target in FY2022 mainly due to an increase in benefit payments related to COVID-19. Capital is on an upward trajectory, but it has been pushed down by the benefit payments.

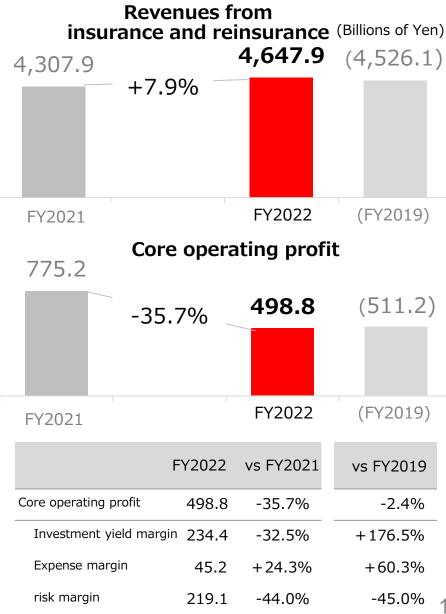

# [Reference] Status of each Group company

#### [Reference] Nippon Life (nonconsolidated): Revenue

- Nippon Life's revenue increased and profit decreased compared to FY2021.
- Revenues from insurance and reinsurance increased mainly due to an increase in sales of single payment whole life insurance caused by a rise in interest rates.
- Core operating profit decreased mainly due to a significant decrease in the risk margin accompanying higher benefits payments related to COVID-19 and a decline in the investment yield margin reflecting an increase in hedge costs.

Domestic life insurance business Business outlook
